

This team/practical project had a good level of detail so was given a 'Merit'

1 Plan	2 Do	3 Reflect
<p><b>Success</b> ▼</p> <p>What are the goals for this project and how will you know if you've achieved them?</p> <p>The goal for this performance was to explore Matilda and create our own piece using inspiration from other Matilda pieces that we have watched.</p>	<p><b>First steps</b> ▼</p> <p>What was your first contribution to the team effort on this project</p> <p>My first contribution was to slam books in unison at a certain part of the song. I thought this would be effective because it grabs the audience's attention and makes them concentrate on your performance and not anything else.</p>	<p><b>Success</b> ▼</p> <p>Give reasons why you think your group was successful, or not, &amp; how well you worked together</p> <p>I think our group was successful in this piece because we worked together and all shared our ideas in an organised way. This meant all of our ideas were discussed which made our piece successful.</p>
<p><b>Breakdown</b> ▼</p> <p>How did your group split-up the tasks to they matched people's strength</p> <p>In our group we have drama students and dance students so we split it up so there was a variety of both dance and drama so that everyone could show their top skills. The dancers worked on the choreography and the actors worked on the facial expressions and movement.</p>	<p><b>New Skills</b> ▼</p> <p>Give an example of how you worked together to use a new skill on this project</p> <p>We worked together by showing each other all of our different ideas that we created in smaller groups and then we came together and put all of our ideas together.</p>	<p><b>Attitude</b> ▼</p> <p>Explain if you felt more or less anxious working with others &amp; why it feels better or worse than solo projects</p> <p>I felt less anxious working with other people because it means you have support of others. They motivate you to carry on working and stay on task. That's good because it stops you from getting distracted.</p>
<p><b>Method</b> ▼</p> <p>How did you produce a plan that you would all share? eg Email or Office 365</p> <p>We all sat in a group and wrote down some of our ideas and discussed them as a group so that we were all aware of our plan and our aims.</p>	<p><b>Challenges</b> ▼</p> <p>Give an example of where your group disagreed and explain how the problem was sorted</p> <p>It's not always easy for everyone to be calm and contribute when other people were showing their ideas. But we overcome any issues by keeping calm and talking through next steps.</p>	<p><b>Improvements</b> ▼</p> <p>Next time you do a group project like this, what would you do differently to improve team spirit?</p> <p>Next time I work in a group project I will encourage others to write down all of our ideas as we go through the piece. Then we can look at them visually and it will be easier so we don't forget our ideas. I think this will help because we can choose our best ideas and put them all together.</p>
